Summary

Results-driven and passionate Software Engineer (Frontend focused) in building dynamic and responsive web applications. Seeking an opportunity to contribute technical expertise and creativity to the success of web projects.

Skills

- HTML, CSS, JavaScript, React, Next.js, Typescript, Tailwind.

Experience

FRONTEND DEVELOPER | HNG9 | OCT 2022 – DEC 2022

- Participated in a 2-month intensive internship with multiple stages, competing with thousands of participants and securing a position as a finalist. This experience improved my team work and problem solving under pressure.

COMPUTER SCIENCE TEACHER | L.A ADENLE GRAMMAR SCHOOL | JUNE 2021 – APR 2022

- National Youth Service Corps (NYSC) mandatory duty.
- Filed reports and appropriate paperwork on students, which included accessing student progress.
- Managed over 60 students at a time to ensure appropriate behavior.

Projects

MOVIESFUN | OCT 2023 -

- A movies web application I worked on to improve my understanding of the next.js framework. Built with next.js14, next-auth, tailwind, typescript and tmdb api for all movies data.
- [project github](#) [preview](#)

PROALX | JUNE 2023

- Foundations team project built during my ALX journey. The project aims to help students connect with project partners who are very active in the program to enable better team work.
